

## **Dartmoor in a Day - Sept 7th 2019**

### **Overview**

The route starts at Okehampton railway station, passes through Postbridge and finishes in Ivybridge. Highlights along the way include the East Okement valley, Hangingstone Hill, the East Dart valley, Bellever Tor, West Dart stepping stones, Ryder's Hill, a clapper bridge over the upper Avon river, the Dartmoor Volcano and stunning views along the Erme valley and out to sea.

This is a challenge event as well as a race, so cut off times at our final checkpoint (Combestone tor) will be very generous (4pm). This will be communicated clearly at our event safety briefing. Transport to the end of the event will be available if anyone doesn't manage to complete the distance in time.

The route is approximately 50km (30 miles) and almost entirely off road. In addition to this, for the 2019 event we are also now offering a smaller 30km (20 mile) challenge, a perfect stepping stone for those new to such events.

The 30km walk option is achievable by anyone with a good level of walking fitness but the 50km should not be underestimated. You will be accompanied by qualified Mountain Leaders with extensive experience and local knowledge of Dartmoor, who will assist you with navigation and provide support where necessary. For the runners, we recommend that you prepare well for this; having run a marathon or two, or some trail runs over 20 miles will set you up well.

The role of our guides will be to act as mobile marshals assisting you with route choice between checkpoints. They are all qualified mountain leaders and first aiders. We will have many different pace options on the day but you are welcome to vary your speed or change groups as required. You are welcome to walk or run with our guides for all or part of your journey, but there is no obligation to do so.

We have arranged for the cafe to open early at Okehampton Railway Station before the event begins, where there will be a selection of food and drink to buy. There will be checkpoints at two

road crossings during the route where light refreshments will be available, at Postbridge and Combestone Tor. Both of these locations are perfect for spectators to offer support and cheer on loved ones. This isn't a fully catered event but we will have a range of drinks and snacks available to supplement whatever you bring with you.

## Map

Much of the route is across wild areas of open moor without any way markings. For our 2019 event however, we have taken the decision to fully mark the course. This will be a combination of arrows on main junctions and small orange flags on all remote sections in between. Route marked maps for the course can be found by following the links below (these are also available to download on our website as a PDF). We do recommend studying the route in advance and highly recommend using ViewRanger to track your progress. This can also be downloaded from our website.

[DIAD leg 3](#)

We recommend using these alongside OL 28 Dartmoor (1:25,000) or BMC Dartmoor (1:40,000) maps. For those that would like to use GPS, you should be able to download this route and use it on your device. You could also consider downloading the **Viewranger** app and turn your Smartphone into a GPS device. Once you have downloaded the route, the app will continue to work without the need for mobile reception. It is possible to download the route "without purchasing premium map" as the basic one works fine. You can however choose to download an OS version.

The ability to navigate isn't essential for this event and, as previously mentioned, you are welcome to stay with our guides for the whole journey. If however you would like to learn some basic navigational skills or brush up on existing ones, please get in touch at [info@climbsouthwest.com](mailto:info@climbsouthwest.com). We can tailor our navigation workshops for individuals or groups of walkers / runners from beginners through to advanced skills for mountainous areas.
